

ACTIVITIES AND SITES OF INTEREST NEAR BY ELEPHANT MOTEL

MKOMAZI NATIONAL PARK

Mkomazi National Park is about four miles from elephant Motel and town center. It takes approximately 15 minutes by car to reach the main entrance where you can obtain information or guidance at the information center. Mkomazi National Park is a precious asset and God's gift for the villagers surrounding the Park. The reserve is about 3000 square kms and borders Kenya Tsavo National Park. Mkomazi is of great biological significance, representing species and eco-systems not common found in Tanzania. Especially early in the morning and at the end of the day many animals can be spotted: giraffes, elephant, hartebeests, zebra, buffaloes, ostriches and many, many beautiful birds! Even the rare black rhino can be spotted here as they were introduced from South Africa for breeding! You cannot visit the breeding area, so do obtain special information on this first. As the National Park is not discovered by a great number of tourists, it gives you the feeling of being the only one around. The Park can be visited by car, but you can also do wildlife safaris, climb the mountains surrounding the Park, or you can even camp at the Park! For all these activities, contact the information center at the main entrance.
